### Monday 7<sup>th</sup> and 21<sup>st</sup> November (1pm – 3pm)

#### “What happens when the brain gets injured “

After a brain injury many people report that they don't fully understand what has happened to their brain and how it is likely to affect their everyday life. In these two sessions, which will be led by Jean and Jenny, we will explore different kinds of brain injury and changes in thinking, emotions and behaviours that can result. There will be the opportunity to discuss individual difficulties and we will exchange information on possible coping strategies that can be used to compensate for some of the reported difficulties.

### Monday 5<sup>th</sup> December (1pm – 3pm)

#### Hints and tips to manage anxiety/stress levels

Many of us feel anxious and stressed from time to time, some people more than others. After a brain injury, it is very common to experience increased levels of anxiety and/or stress. In this session we will explore why this should be so and discuss some anxiety/stress reduction methods.

For those people who do not experience anxiety/stress, there will be the opportunity to socialize separately with peers and engage in fun activities that will help to improve concentration.

### Monday 19<sup>th</sup> December (1pm – 3pm)

#### Christmas Party

Thanks to one of our members, this year we will be having our pre-Christmas meeting at Elim Pentecostal Church Hall, Bowman Street, off North Road, DL3 OHE. Everyone welcome. There will be refreshments, including non-alcoholic mulled wine, games, a Tombola and live music.
